INTRODUCTION

This business process guide documents the Social Security Administration's (SSA) suitability process for Employment Network (EN) personnel. A background investigation is required for EN personnel who require any type of access to an SSA facility, site, system, or information, and when a Personal Identity Verification (PIV) credential is required.

SSA personnel may not allow EN personnel access to a facility, site, information, or system until SSA's Center for Suitability and Personnel Security (CSPS) issues a current, favorable suitability determination for the specified award (e.g., agreement, contract, grant, etc.). A suitability determination letter issued by CSPS is valid only for performance on the SSA award specified in the letter. Even if an individual previously worked on an SSA award, they must still go through the suitability process to return to work on the specified award or a new award (see [EN Personnel Suitability Workflows](#) below for the applicable steps and stages).

The EN Company Point of Contact (CPOC) must submit the required paperwork **at least 30 business days** prior to the date personnel are to begin work. The suitability process will not begin until CSPS receives accurate and complete documents.

The Ticket Program Manager (TPM) recommends the EN CPOC review the entire business process guide prior to bringing EN personnel to work.

Failure to follow the chronological process, as detailed in this document, will result in delays and/or personnel not allowed to work on SSA awards.

PROCESS OVERVIEW

The following is a high-level overview of the SSA security and suitability requirements for EN personnel. Please see the [EN Personnel Suitability Workflow](#) charts below for step-by-step security and suitability requirements.

1. The EN CPOC submits the suitability package to SecRes.PerSec.Contractor.Vetting@ssa.gov and ENService@ssa.gov in a password protected email with compressed attachments. The suitability package includes the following elements:
 - a. National Background Investigation Services [Electronic Application Applicant Listing](#) including the award number, award points of contact, and information on the applicants identified to work on the award.
 - b. Completed [Optional Form \(OF\) 306, Declaration for Federal Employment](#); and
 - c. Work authorization documentation for applicants that are not citizens of the United States of America, if applicable.

- CSPA verifies if the EN personnel (applicant) already has the appropriate background investigation on record or initiates the application in eAPP. CSPA sends an invitation email containing the applicant's NBIS eAPP system initiation date and an attachment with fingerprinting instructions and a link to the FieldPrint website to the EN CPOC and ENService@ssa.gov.
- The EN CPOC forwards the fingerprinting process information to the applicant.
- NBIS sends the account creation email from **donotreply@nbis.mil** to the applicant.
- Applicants have 10 business days to complete eAPP and submit electronic fingerprints.
- CSPA makes initial suitability determination (as applicable, reviews form submissions, resolves any discrepancies, and releases investigation to NBIS, and releases the applicable suitability determination letter to the EN CPOC and ENService@ssa.gov).
- NBIS completes the full background investigation. CSPA reviews and adjudicates the background investigation.

Current Contractor/EN Personnel Moving to Another Award (Rollover Request)

If current contractor/EN personnel are to perform work under a new award, CSPS must review the applicant's suitability to work on the new award. As applicable, CSPS will issue a suitability letter for the new award or notify the EN CPOC and ENService@ssa.gov of any additional steps required for the suitability review.

| Step | Responsible Party | Activity | Timeframe* | Tips and Follow-Ups |
|------|-------------------|--|-------------------------|---|
| 1. | EN CPOC | Submits a fully completed, Contractor Personnel Rollover Request Form (ssa.gov) to EN Service and CSPS. | | <p>See Encrypted Email Procedures for details on securely emailing these documents.</p> <p>Include ENService@ssa.gov on the email submission to SecRes.PerSec.Contractor.Vetting@ssa.gov.</p> <p>Utilize password TTWE and last 4 digits of your award number (e.g., TTWE1234).</p> <p>On the rollover form, use ENService@ssa.gov for the COR information.</p> |
| 2. | CSPS | <p>Reviews applicant to ensure they have the appropriate background investigation to perform work on the new award.</p> <ol style="list-style-type: none"> 1. If suitable, releases a suitability determination letter for the new award. 2. If the applicant does not have the proper investigation on record, CSPS will notify the EN CPOC and EN Service of the requirement to go through the full suitability process. | Within 5 business days. | If CSPS notifies the EN CPOC the applicant does not have the proper investigation for the new award, see Step 1 of the Suitability Process above to begin a new suitability review for that applicant. |

Unsuitable Determinations

When an applicant is determined unsuitable, CSPS will send a letter notification to EN Service and the EN CPOC to be issued to the applicant. There is no appeals process; however, the applicant may request clarification. Details are provided in the letter.

The applicant must submit requests for clarification for unsuitable determinations in writing within 30 days of the date of the unsuitable determination to DCHR.OPE.SuitClarify@ssa.gov. Applicants must file their own requests; award EN CPOC may not file requests on behalf of the applicant.

Through the Freedom of Information Act process, the applicant can request in writing a copy of their investigation from OPM. The written request must prominently note “Freedom of Information Act Request” and describe in detail the records needed. This will assist OPM with locating the records.

Name Change Process

The EN CPOC should notify their main EN Contractor Suitability POC and ENService@ssa.gov once the individual has legally changed their name, including reporting to a local SSA field office to update SSA’s mainframe record.

Re-Investigations

EN Personnel may be subject to re-investigations every 5 years from the date of their last completed background investigation. CSPS will notify ENService@ssa.gov and the EN CPOC when an individual is due for re-investigation.

EN personnel must comply with any requests from CSPS to remain active on an SSA award. The notification from CSPS will detail the steps and requirements for the re-investigation.

Notification Requirements for EN Personnel

The EN CPOC shall notify ENService@ssa.gov and their main EN Contractor Suitability POC within one business day if any EN personnel:

1. Is arrested or charged with a crime during the term of their award.
2. Has any other change in the status of individual (e.g. leaves the company, no longer works under the award, the alien status changes, etc.) that could affect their suitability determination.

The EN CPOC must provide as much detail as possible in the notification, including, but not limited to: name(s) of individual whose status has changed, award number, the type of charge(s), if applicable, date of arrest, the court date, jurisdiction, and, if available, the disposition of the charge(s). If the individual separated and the background investigation is in process, CSPS will cancel the investigation.

REFERENCE INFORMATION

Glossary

Award Number

EN personnel are affiliated with an SSA award (e.g., SSA agreement) number for processing.

NBIS Electronic Application (eAPP)

Electronic application system entry point for background investigation applications. The eAPP is used for entering and submitting all information into the investigative electronic Standard Forms that federal applicants, employees, and contractors use to input information required to process their personnel background information.

Key Participants

EN Company Point of Contact (CPOC)

A representative of the awarded Employment Network who is designated as the Suitability Contact or the Signatory Authority.
